

Michael A. Shinall

Principal

T +1 (617) 248-4801 | mshinall@choate.com

Michael Shinall, using his industry and research experience in the fields of chemistry and pharmaceuticals, works with clients to develop strategies to protect their technology and business assets. His practice focuses on patent portfolio management, post-grant proceedings, and licensing/transactional agreements.

During his time at Choate, Michael has assisted a wide variety of clients, big and small, from maintaining worldwide patent coverage for approved small molecule therapeutics, to establishing foundational IP to build value for a new company. Michael also counsels clients on lifecycle management of their critical programs, and works with clients to identify creative solutions to protect their valuable assets.

Michael also advises clients on contentious matters in the United States (including *inter partes* review and post-grant review proceedings), as well as extensions of those proceedings outside the U.S., such as third party observations in Europe.

Michael's clients include Progenics Pharmaceuticals, Forma Therapeutics, Saudi Arabian Oil Company, Olema Oncology, and Casma Therapeutics.

PRACTICE AREAS

Intellectual Property Protection

Complex Intellectual Property Disputes

Life Sciences

INDUSTRY EXPERIENCE

Before law school, Michael was a medicinal chemist at AstraZeneca, where he designed and synthesized molecules for use as potential cancer therapeutics. In graduate school, Michael worked both on novel synthetic methods, as well as natural product synthesis. The majority of his work focused on visible light photoredox catalysis utilizing $\text{Ru}(\text{bpy})_3\text{Cl}_2$ to promote an intramolecular radical addition to indoles and other organic compounds.

REPRESENTATIVE ENGAGEMENTS

Prosecution, Counseling, and Diligence

- Prepares patent applications in the subject areas of chemistry, pharmaceuticals, and materials science for prosecution globally.
- Counsel and executed strategy to obtain broad formulation claims for product-stage small molecule therapeutic.

EDUCATION

Boston College Law School
JD, 2013

Senior Editor, *International & Comparative Law Review*

Boston University
MA, 2009, *Organic Chemistry*

Fairfield University
BS, 2007

ADMISSIONS

Massachusetts

U.S. District Court,
Massachusetts

U.S. Patent and Trademark
Office

- Develop strategy for companies developing companion diagnostics.
- Represented multiple pharmaceutical companies as IP counsel in initial public offerings.
- Performed IP due diligence analyses and opinions for initial public offerings on behalf of private companies.
- Counsel for clients seeking collaboration agreements for research and clinical development.

Contentious Matters

- Counsel for Progenics Pharmaceuticals, Inc. in a PGR proceeding challenging a patent directed to compounds for preparing ¹⁸F-radiolabeled Prostate-Specific Membrane Antigen (PSMA)-targeting conjugates.
- Counsel for Saudi Arabian Oil Company in an IPR proceeding challenging a patent directed to polycarbonates.
- Assist with strategy in ex-U.S. suit brought by client against foreign entity related to radiopharmaceuticals through analysis of data, art, and expert declarations.
- Prepare arguments for third party observations for pharmaceutical company in Europe.
- Analyzed art and worked directly with expert to assist in preparation of expert report, and assisted with the preparation of demonstratives for jury trial in patent litigation.

PUBLICATIONS AND PRESENTATIONS

- “2022 Trends at the PTAB,” *speaker*, Boston Patent Law Association’s Annual Intellectual Property Symposium, June 2022.
- “Priority and Disclosure: Challenges and Protections to Small Inventors in a First-to-File World,” *author*, *94 J.Pat. & Trademark Off. Soc’y* 362.

PROFESSIONAL AND COMMUNITY INVOLVEMENT

- Member of the Boston Patent Law Association
- Member of the PTAB Bar Association
- Member of the Boston Bar Association
- Category 1 cyclist on the Green Line Velo/Zipcar Elite Cycling Team
