

Robert N. Sahr, PhD

Counsel

T +1 (617) 248-4756 | rsahr@choate.com

Dr. Sahr develops strategies for life science companies to maximize exclusivity for medicines and diagnostics, in particular biologics. Dr. Sahr concentrates his practice on building worldwide patent portfolios appropriately aligned with product life cycle. Dr. Sahr brings a sophisticated understanding of the interplay between patent and regulatory law to his practice. Having worked in research and discovery for a multinational pharmaceutical company, Dr. Sahr knows the process, science, and business of bringing regulated products to market.

EDUCATION

Indiana University School of Law-
Indianapolis
JD, 2009, *summa cum laude*

Indiana Law Review

Indiana University School
of Medicine
PhD, 2004, *Medical
Neurobiology*

State University of New York
at Albany
BA, 1993

PRACTICE FOCUS

Intellectual Property Protection

Strategic patent portfolio development, regulatory exclusivities, biosimilars, patent term extensions and Orange Book listings, patentability assessment, freedom to operate, non-infringement and invalidity opinions.

Complex Intellectual Property Disputes

Pre-litigation diligence, patent litigation strategy, PTAB proceedings (interference and *inter partes* review).

REPRESENTATIVE ENGAGEMENTS

- Develop and prosecute patent portfolios for therapeutic products including antibodies, vaccines, nucleic acid molecules, polypeptides, stem cells, medical devices, imaging agents, and small molecules for new disease indications.
- Compliance with Bayh-Dole requirements for federally funded inventions.
- Navigate eligible subject matter for patenting of diagnostic methods and products.
- Landscape analysis and strategy for biotechnology companies pursuing biosimilar/interchangeable biologic products.
- Clearance of potentially blocking third party IP via protests, third party pre-issuance submissions, and oppositions.

ADMISSIONS

Massachusetts

Districts of Indiana

PRACTICE AREAS

Intellectual Property
Protection

Life Sciences

Complex Intellectual
Property Disputes

- Non-infringement and invalidity opinions for multinational pharmaceutical companies seeking to launch products (human and animal vaccines, pain therapeutics).
- Inventorship assessment and opinion for dispute resolution.
- Patent interferences through priority phase regarding nucleic acid molecules, polypeptides and antibodies.

PUBLICATIONS AND PRESENTATIONS

- “Are Your Pharmaceutical Patents at Risk?” *moderator*, BIO International Convention, June 2018.
- “Does the US Government Have Rights to Your IP Under Bayh-Dole?” *speaker*, Life Sciences Patent Network North America, April 2018.
- “A Patent Primer for Academic Scientists—What, Why and How?” *speaker*, BAWA Biotechnology Consulting, LLC's Current Issues in Medicine, Biotech and Pharma, August 2015.
- “Inside FDA Regulation of Antibody Drug Conjugates,” *co-author*, *Intellectual Property Law 360*, July 2015.
- “Patent Primer for Academic Scientists” *speaker*, Current Issues in Medicine and Pharma 13th Annual International Conference, Albany College of Pharmacy and Health Sciences, August 2015.
- “Have Prometheus & Myriad Changed the World?” *speaker*, presentation to Blavatnik Fellows in Life Science Entrepreneurship at Harvard Business School, Boston, October 2013.
- “The Biologics Price Competition and Innovation Act: Innovation Must Come Before Price Competition,” *author*, Boston College Intellectual Property & Technology Forum, July 2009.

PROFESSIONAL AND COMMUNITY INVOLVEMENT

Dr. Sahr served two terms on *Law360's* Life Sciences editorial advisory board, providing feedback and guidance to the publication regarding its coverage of the industry. He served as a Massbio MassCONNECT mentor for a start-up biotechnology company. He is also a member of the American Intellectual Property Law Association, the Boston Patent Law Association, the Boston Bar Association, the American Bar Association, and the PTAB Bar Association.
