Choate Represents BS&A, a Serent Capital Portfolio Company, in Acquisition of Boyce Systems

Choate represented Serent Capital and its portfolio company, BS&A Software, in the acquisition of Boyce Systems. BS&A is a leading provider of cloud-based municipal enterprise resource planning (ERP) solutions, and Boyce Systems, with its Keystone software, is one of Indiana's top providers of financial and ERP solutions for municipalities. The acquisition strengthens BS&A's presence in Indiana and the Midwest and enhances its ability to support local governments with modern, secure, and efficient technology solutions. BS&A now becomes one of the largest municipal ERP providers in the U.S., serving over 2,900 municipalities and 3,500 total customers across all product offerings. As part of its commitment to education, BS&A will create a new Schools Division to continue Boyce's long-standing service and solutions for Indiana schools.
