Margo Monroe to Speak on IP Strategy Panel at BioMADE

Margo Monroe will speak on the panel, “Finding Your Full Patent-tial: How to Craft IP Strategy that Grows with You” at BioMADE this Wednesday, April 29th at 11:45 AM.

The panel will explore the strategic questions and potential pitfalls surrounding intellectual property in bioindustrial manufacturing. Panelists will discuss when to use trade secrets versus patents, how and when to disclose novel IP, and how to partner, share, or collaborate with other organizations while protecting what matters most. This session will host a practical conversation on how organizations, both large and small, can approach their most critical IP decisions with confidence.
