# Mark McPherson Speaking on Regulatory and Enforcement Actions at Medical Device Ethics and Compliance Congress

Mark McPherson will be speaking on the panel, "Update on Medical Device Regulatory and Enforcement Actions" at the 25th Annual Pharmaceutical and Medical Device Ethics and Compliance Congress on Monday, October 28th at 9:00 a.m.

The panel will discuss the evolving landscape of medical device regulations and recent enforcement actions, and provide an update on the latest developments shaping the regulatory environment for medical devices. Key discussion points will include:

- Explore recent enforcement actions and their implications for medical device manufacturers, highlighting key lessons and areas of heightened regulatory scrutiny.
- Discuss strategies to navigate and adhere to evolving regulatory requirements, ensuring robust compliance frameworks that meet industry standards.
- Assess progress towards global regulatory alignment and its impact on market access and the development of innovative medical devices.
- Gain predictions on emerging regulatory trends and their potential implications for the medical device industry, shaping future compliance strategies and business decisions.
